

RZFJ-2000 Auger Filler

Milk powder, protein powder, cocoa powder, coffee powder, additives, powder, small granules medicines, veterinary drugs, glucose, spices, solid beverage, toner, toilet powder, pesticides and so on.

Main Features of Auger Filler

Automatic auger filler is suitable for filling various easy flow or poor mobility of powder and small particles products.

1. All parts made in stainless steel, easy to clean.
2. Filling with high precision, filling volume and speed can be adjusted.
3. PLC control system, stable working, anti-jamming, high precise weighing.
4. Combined with packaging machine and other packaging related equipment.

Main Specification

Model	RZFJ-2000
Working Mode	Auger rotation filling tracked by weighing feedback
Packaging weight	10-2000g (Exchange auger accessory)
Weighing Range	1-2000g (with a resolution of 1g)
Weighing Accuracy	Package weight $\leq 100\text{g}$: error $\leq \pm 1$; $\geq 1000\text{g}$: error $\leq \pm 0.5\%$
Working Speed	10-45 bags/min
Total power	1.5KW
Weight	260kgs
Dimensions	1000×1275×2200mm
Hopper Volume	39L(60L for oversized hopper)
