

CJSL25K/CJD50K-WL25K Semi-auto Powder Packing Machine

For 5~25kg semi-auto powder packing machine, we have two models for choose, one is CJSL25K vertical auger filler for the powder which is fine and mobility not very good, such as protein powder, milk powder, powder, powder additives, starch, solid drink, white sugar, solid drink, veterinary medicine, glucose, carbon powder, talcum powder, dye, flavor spices, etc. The other model is CJD50K-WL25K horizontal screw filler for the powder which own good mobility or mixture material.

Technical parameters:

Type	CJSL25K/CJD50K-WL25K
Measurement methods	Weighing feedback tracking rotary backfill type
Weighing range	5KG-25KG (Changing screw attachment)
Filling accuracy	200g-1000kg $\leq\pm2g$ $\geq\pm1000kg$ $\leq\pm0.2\%$
Filling speed	5-25times/min
Power supply	Three phase 380V 50-60HZ
Engine power	3KW
Whole machine weight	450KG
Whole machine volume	L1150*W1000*H2550
Bin volume	100L
