5. Material is stainless steel 304; meet the standard requirements of food products and durable in using time.
6. Machine can set it automatically filling or step on foot pedal for filling, both are ok.
7. Filling weight is precise and accurate.

Technical Parameter:

Model	SG- F
Filling Speed	30- 50 Times / Min
Filling Caliber	Minimum Diameter 1.5CM
Weight	Net Weight :150kg; Gross Weight :190 KG
Warranty	One Year (Machine's warranty range doesn't include quick wear parts; for other parts, providing new free parts for clients in warranty period, you only need paying shipping fee)
Voltage	AC220V Single- phase 50HZ
Total Power	0.55 KW
Control system	Imported Original PLC Control System (makes machine good stability, good use, easy to operate and durable in using time)
Measuring Mode	Auger or Screw
Machine material	Stainless Steel 304 (SS304) (Meet standard requirement for food products and durable in using time)
Package	Wrapped plastic film first , then plywood case with metal frame
Machine Dimension	700 * 600 *1700mm
