

## Stick Pack Machine for Non-Free Flowing Products TP-P001

This fully automatic filling machine is designed to pack untouched, affixed-on-three-sides packets like coffee, coffee cream, energy drinks, medical powder that has no spontaneous fluency through screws by disposable products. Non free flowing powder products can be packaged with this machine using screws synchronized with PLC in a high level of sensitivity. The machine can produce 90 pcs/min using 3 channels and 180 pcs/min using 6 channels.

Turpack can provide you with a complete powder packaging system for all of your powders and granulares, whether dusty, free flowing or non-free flowing. Our stick pack and sachet machines can package ground coffee blends, flour mixes, spices, drink mixes, sugar and artificial sweeteners, tea, nutraceuticals, pharmaceuticals, and more!
