

XZS Sifting Machine

The XZS sifting machine is an ideal facility for sifting tablets and powder used in the industry of medicine, foods and chemicals. The shaking part and the pedestal are connected and fixed by 6 sets of soft rubber shake absorbers. The adjustable eccentric hammer rotates along with the driving motor, producing centrifugal force and controlling shake absorbers in order to reach the demands of normal functions. There is no shaking in the pedestal during the operation. Besides, it boasts a small noise, low energy consumption, no dust, a high efficiency. It is convenient to move, clean and maintain.

Technique parameter of XZS Sifting Machine:

Model	Output(Kg/h)	Screen meshes(mesh)	Power(KW)	Overall size(mm)	Weight(kg)
XZS315	130	3-200	0.55	490*190*1000	100
XZS400	200	3-200	0.75	580*580*1100	120
XZS515	325	3-200	1.1	700*700*1250	175
XZS630	510	3-200	1.5	860*860*1350	245
XZS800	800	3-200	1.5	1200*1200*1550	400
XZS1000	1100	3-120	1.5	1450*1450*1550	1100
XZS1200	1400	3-120	1.5	1650*1650*1600	1300
XZS1500	1900	3-120	2.2	1950*1950*1650	1600
XZS2000	2500	3-120	2.2	2450*2450*1700	2000
