

Milk Tea Packing Machine **DXD-K150C**

Characteristics:

1. The fully automatic milk tea packing machine is designed with PLC programmable control and an English and Chinese display screen, making it easy to operate and maintain. It is easy to adjust.
2. With advanced photoelectric digital control system, the pouch length is easily adjustable. The machine offers accurate printing and counting.
3. The milk tea packing machine uses a light touch display screen featuring digital input and display, air tightness, insulation, durability, strong corrosion resistance and user-friendly operation.

Usage:

The milk tea packing machine is used for packing loose, non sticky granular materials such as pellets, sugar, soup, oatmeal, seeds, coffee, instant drink, detergent power, beef jerky and more. It is used in the pharmacy, food, and agriculture industries.

Main Technological Parameters:

Item / Model	DXD-K150C
Pouch length	80-180mm
Pouch width	70-120mm
Sealing fashion	3-side back sealing
Packing speed	20-50 bags/min, depending on pouch size and materials
Range of measuring	10-120ml /bag
Applicable film	PET/AL/PE, PET/PE, NY/AL/PE, NY/PE
Electric source	380V 3 phase 4 wires 50Hz (as per customer's request)
Total power	1.5kw
G.W.	400 Kg
Package size	1220*1000*1900mm(L×W×H)
