

ST-6040Q Sleeve Shrinking Machine

Characteristic:

T6040+BSE6040A is suitable for wrapping of such products as pop-top, mineral water, bottles beer, drinks etc without bottom-tray (or with bottom-tray). Working with PE shrink tunnel to pack the goods perfectly. The whole producing process adopts the Germany advanced mechanics. And the main parts are imported from international famous companies, such as OMRON, MITSUBISHI, FUJI ets, capability stable and using long-time.

1. Sealing and protect the operator meanwhile.
2. Double size fan carrying system ensures the perfect of sealing.
3. Imported AC contractor, the temperature be controlled by automatic.
4. Imported frequency converter, stepless speed regulating.
5. Super cooling system to ensure the perfect shape of products quickly often shrinking.
6. The control panel be operated with safe and simple.
7. The imputing position can be adjustable precision base on the size of products.
8. The size of tunnel can be customized for your request.
9. Up and down large power fan system to assure the excellent effect of shrinking in onetime.

Technical specifications:

Model	ST6040
Power supply	220-240V/50-60Hz
Seal size	L600xW400mm
Working efficiency	3-6sets/min
Air pressure	1HP/2KW
Sealing time	0.5-1.5s
Machine size	115x91x186mm
Machine weight	200kg
Model	BSE6040A

Power supply	3Phase 380V/50Hz
Heater power	22KW
Tunnel size	180x60x40cm
Machine size	275x84x155cm
Machine weight	280kg
