

Shrink Sleeve Labeling Machine YY-200P

In order to meet the assorted demands of respectable clients, we are able to deliver automatic body shrink sleeve applicator. The offered range of automatic body shrink sleeve applicators is designed & developed utilizing optimum grade material, sourced from trusted vendors of the market. Along with this, the offered range of automatic body shrink sleeve applicators is strictly checked on myriad parameters to ensure its adherence with the benchmarks of quality.

Applicable bottle types:

It is applicable for different bottles or cans, for example: glass bottles, plastic bottles and iron or aluminum bottles, cans.

Applicator for bottle shape: round bottle, square bottle, flat bottle, curved bottle and abnormality bottle.

Feature:

1. Fully automatic operation
2. No bottle: No sleeve-feature (eliminates wastage)
3. Rotary cutting system
4. Can handle round glass/plastic bottles
5. Speed of 40 bottles to 300 bottles/min depending on the cut length of the sleeve
6. Servo motors for more accuracy
7. Fitted with digital PLC control
8. Height adjustments to suit height variant bottles
9. Eye mark sensor for accurate cutting in printed sleeves
10. VFD used to increase or decrease the speed wherever necessary
11. Can easily be synchronized with a tunnel

Technical Specification:

Model:	YY-200P
Frame material:	SS304
Power (kw)	2
Voltage (v)	3 phase, 380/220VAC, 50/60HZ
Product speed (b/m)	200
Applicable Diameter of Bottle Body (mm)	Φ28 mm-Φ125mm
Applicable Diameter of Bottle height (mm)	30~ 250
Applicable Thickness of Label (mm)	0.035 ~0.13
Applicable Internal Diameter of Paper Tube (mm)	75-250mm adjust freely
Size of Host Machine (mm)	2100L*1200W*2000H
Weight (kg)	250
Wooden case dimension: (One sets)	2.15*1.3*2: 2.1*0.6*1.6(m)
