

## *Semi-automatic Cold Glue Labeling Machine model SBM-LM200CG*

It's one of cold glue labeling machine, suitable for all kinds of round bottle. Can subdivide paper, coat glue label automatically. Can reduce manual labeling process, improve labeling efficiency. Coating evenly with filamentous stripes, do not wrinkle, improving packaging grades. Especially suitable for labeling middle and small batch production, such as food, alcohol and other labeling.

### **Features**

1. Easy to operate, loading bottles by manual and can complete the entire labeling process easily.
2. Simple to adjust, especially for small batch production, labeling quick and easy to switch varieties, improving efficiency.
3. Saving glue, adhesive thickness can be adjusted easily, coating evenly and eliminating glue waste.
4. Accurate labeling, label head and tail docking coincident high position of the bottle label positioning accuracy.
5. Labeling high quality, adjustable filamentous stripes, labeling flat, no wrinkles, no warping, improve packaging grades.
6. High degree of automation, sub paper feeding, gluing, labeling, follow standard auto-complete, improve labeling efficiency.
7. Applicable wide range of products to meet  $\phi$  30mm- $\phi$  120mm circumference within the paste labeling.
8. Simple to clean, filled plastic tray, scraping gum knife, glue wheel separation design, cleaning simple and quick.
9. Safety, transmission parts built, electric side placement, prevent water splashes electrical components, higher safety factor.
10. Compact design, small footprint, easy to move and production layout.
11. Health, mainly made of stainless steel and high alloy, meet the GMP production requirements, beautiful and elegant.

## Technical Info

<b>Model</b>	<b>SBM-LM200CG</b>
Labeling Speed	up to 30 bottles per minute
Labeling Accuracy	±1mm
Label Length	80-380mm
Label Width	40-180mm
Product diameter	30-120mm
Product Height	30-230mm
Power Supply	220v, 50Hz, 80W
Machine Dimension(L×W×H)	630×430×400mm
Machine Weight	Approx.37kg
