

## *Cream Packing Plastic Tube Filling Sealing Machine SED-60RG*

This machine is a high-tech product which successfully developed and designed by adopting advanced technology from abroad and strictly meet GMP requirement. PLC controller and color touch screen are applied and made it possible for programmable control of the machine. It can perform the filling for ointment, cream jellies or viscosity material, sealing or tail folding, batch number embossing (include manufacture date) automatically. It's ideal equipment for aluminum tube filling and sealing for cosmetic, pharmacy, foodstuff and bond industries.

### **Feature:**

- 1) According to the different length of the tube, height of tube chamber can be adjusted easily by motor. With external reversal feeding system, makes tube charging more convenient and tidy.
- 2) The mechanical linkage photo sensor precision tolerance is less than 0.2mm. The chromatic aberration scope between tube and eye mark is reduced.
- 3) Photo-electronic, electric, pneumatic integrative control is applied with the machine. No tube, no filling. It gives an alarm when low pressure occurs. The machine stops automatically if tube error or open the safety door.
- 4) Three-layer jacket instant heater with inside air heating, it won't damage the pattern on outer wall of tube and achieves firm and beautiful sealing effect.

**Main Technical Data:**

<b>Name</b>	<b>Data</b>
Dimension (L×W×H)	1950×1000×1800mm
Weight	850Kg
Power supply	50Hz/380V 3P
Main motor power	1.1KW
Heating power	3KW
Water chiller power	1.5KW
Speed	30-50/min/max
Filling range	3-250ml
Tube length	50-210mm
Tube diameter	12-50mm
