

## *Turn Table DTT - 30/36/42*

Stainless steel scrambler & unscrambler, which is familiar as turn table. This is built on SS square frame, solid guide rail & reduction gear box for jerk less & noiseless performance. Turntable is useful to ensure total synchronization, uniform flow of container and to take a turn at 90 degree to suit different machine and purpose in automatic liquid line.

### **Operation:**

Container inputs in turn table by manually or automatic will rotate on disk of turn table and exit through outlet, during rotation of container will be guided by a SS strip, which will guide the container towards outlet path.

### **Specifications:**

| Model                          | DTT - 30                                       | DTT - 36           | DTT - 42           |
|--------------------------------|--|--------------------|--------------------|
| <b>Direction</b>               | Clockwise / Anti clock wise as per requirement |                    |                    |
| <b>RPM of Disk</b>             | 4/5/6 through step pulley                      |                    |                    |
| <b>Power Characteristics**</b> | 0.5 HP/415 V/50 Hz                             |                    |                    |
| <b>Height of Disk**</b>        | 860 mm to 910 mm                               |                    |                    |
| <b>Machine Dimensions**</b>    | 780 x 780 x 1160                               | 925 x 925 x 1160   | 1076 x 1076 x 1160 |
| <b>Case Dimensions**</b>       | 975 x 975 x 1300                               | 1125 x 1125 x 1300 | 1300 x 1300 x 1300 |
| <b>Net Weight</b>              | 150 Kgs.                                       | 175 Kgs.           | 200 Kgs.           |
| <b>Gross Weight</b>            | 300 Kgs.                                       | 350 Kgs.           | 400 Kgs.           |
