

## ***Automatic Self Adhesive Vertical Labelling Machine ASAL-120 / 250***

Automatic Self Adhesive vertical labelling machine is another one of the high technologically proficient machines offered by NKP Pharma and it comes in two variants- ASAL-120/250. Labeling machines play an important role in pharmaceutical industries as they display the necessary product details, such as- company details, composition, etc. NKP Pharma manufactures vertical labelling machines to provide wrap around sticker labeling solutions for the containers. The entire procedure of labeling the vials demands a highly accurate vial labeling machine as it is an arduous task of putting labels on these small cylindrical shaped, glass containers. These vial labellers use a wrap around mechanism for labeling, which is predominantly the most preferred method. Self-adhesive labeling machines are a type of vial labelling machine that is employed for labeling round containers by partially or fully wrapping them around. The number of containers per hour that can be labeled using this self-adhesive labeler machine is also one of the most user-friendly pieces of equipment that one will ever come across.

ASAL-120 has a production rate of attending up to 120 vials/min. On the other hand, for ASAL-250, it shoots up to 240 vials/min. Both these variants of self-adhesive vertical labelling machines require 2 HP of electric supply in order to ensure that the operations performed by them are efficient. The vial labeler machine is capable of applying labels for all lengths starting from 12mm. It can incorporate containers having diameters in the range of 20 mm to 90 mm.

**Technical Parameters:**

<b>Model No.</b>	<b>NKCS - 80</b>
Direction	Left to Right
Production Rate	Up to 50 to 60 Vials/Min.
Electrical Supply	3.0 HP
No. of Sealing Heads	One
Power Requirement	415 Volts, 3 Phase (4 Wire System), 50 Hz.
Height of Conveyor	Adjustable from 900 to 950 MM
Dimensions	1170 MM (L) x 930 MM (W) x 1750 MM (H)
Net Weight	300 Kgs. (Approx)
Gross Weight	450 Kgs. (Approx)
Vial Sizes	2 ml. to 100 ml.
Seal Sizes	13 mm, 20 mm, 28 mm & 32 mm
