

## Flat Type AL/PL & AL/AL Blister Packing Machine (Extended Type) DPP250S

### Sample:

1. Worm wheel Reductor: Main machine overloading protect with lower noise and stabile running.
2. Adjustable range of stroke: Can change the stroke dimension freely to suitable more kinds of product.
3. Online mechanical photography detection and rejection device with 100% rejected rate(option).
4. Double orientation shafts with spline shaft transmission adopted to ensure synchronization stabile running.
5. Touch screen with PLC mould adopted, stabile operation and easy maintenance (option).

### Technical Parameter:

Capacity(Cycle/min)	AL/PL≤50,AL/AL≤35	
Range of stroke(mm)	40-120	
Packing material	Pharmacy PVC(mm)	(0.2-0.5)×250
	PTP alu foil(mm)	(0.02-0.05)×250
	Tropical alu(mm)	(0.09-0.15)×250
Clean compressed air(pressure)	0.5~0.7Mpa	
Air consumption(m <sup>3</sup> min)	≥0.3	
Power	AC380V 50HZ 9 KW	
Water chiller for moulds	Tap water or recycle water with 60l-/h consumption	
Overall dimension(L×W×H)(mm)	3890×650×1650	
Net weight(kg)	1800
