

FK909 Semi Automatic Double-sided Labeling Machine

FK909 semi-automatic labeling machine applies the roll-sticking method to label, and realizes labeling on the sides of various workpieces, such as cosmetic flat bottles, packaging boxes, plastic side labels, etc. High-precision labeling highlights the excellent quality of products and enhances competitiveness. The labeling mechanism can be changed, and it is suitable for labeling on uneven surfaces, such as labeling on prismatic surfaces and arc surfaces. The fixture can be changed according to the product, which can be applied to the labeling of various irregular products. It is widely used in cosmetics, food, toys, daily chemical, electronics, medicine and other industries.
