

Hot Seller Pillow Granule Powder Liquid Packing Machine TJ-240K

Introduction

1. This Hot Seller Pillow Granule Powder Liquid Packing Machine adopts the latest German PLC control system. The inverter is steplessly variable, and the main motor, PLC, inverter, sensor, relay, contactor and pneumatic components are all international famous brands.
2. The Hot Seller Pillow Granule Powder Liquid Packing Machine controls the metering to release the material and does not waste materials.
3. The Hot Seller Pillow Granule Powder Liquid Packing Machine is equipped with a safety protection door, and the protection door is made of transparent plexiglass.

Features

The Hot Seller Pillow Granule Powder Liquid Packing Machine has built-in weighing and several bags/several modes to achieve your needs.

The Hot Seller Pillow Granule Powder Liquid Packing Machine adopts no chute chute to avoid material blockage.

The Hot Seller Pillow Granule Powder Liquid Packing Machine adopts the weighing material detection switch to avoid material accumulation in the main vibration center.

The special bimodal type rotating main vibration plate with the sweeping rod is distributed to each line vibration plate by forward and reverse rotation.

Hot Seller Pillow Granule Powder Liquid Packing Machine parts (optional)

1. Ink printer
2. Conveyor
3. Hot pressing codes

Technical Parameters:

Model	TJ-240K
Packing speed	30-60 bags/min
Making bag size	W:20-140mm L:30-170mm
Packing volume	No more than 15g
Voltage	220V
Overall dimension	250kg
Weight	750X850X1750mm
