

## Automatic Vertical L-Bar Sealer Packaging Machine ZF-6352

Full automatic vertical L-Bar sealing machine, through rigorous design, processing, assembly, combined with stable quality brand electrical appliances, the machine performance is very stable, can work continuously for a long time. It can be combined with disc conveyor for flat packing, and can also be connected with slitting machine to form a complete automatic packaging production line, which greatly improves the production efficiency.

### Features

1. Three pairs of electric eye induction products, with a wider application range and smoother production.
2. Four sealing protection proximity switches can better protect the sealing knife and products and realize safe production.
3. Two sets of brake components are controlled, and the pulling part is controlled by a frequency converter, which makes the operation more stable, and the bag length is high in accuracy to ensure the packaging effect.

### Specification

Model:	ZF-6352
Machine size L*W*H(mm)	1950*1570*1310
Sealing blade size L*W(mm)	630*515
Product size range L*W*H(mm)	(80-560)*(60-430)*(5-250)
Power supply:	1P/220V/50HZ/3 KW
Net weight	750KG
