

## VH-100/200/300/500 Efficient Mixer

This machine has the following distinguishing features, no blind eagle in the cylinders, and no accumulation of materials, high speed, and short mixing time. With the body made of stainless steel and both inner and outer walls polished, the cylinders have elegant appearance. The charging of materials can be made either by manual operation or through vacuum suction. For discharging, rotating valves and rapid swivel heads are adopted. This mixer is applicable for mixing powdery or granular materials in pharmaceutical and other industries. It consists of two V-type cylinders of different altitudes, and through mechanical transmission the materials in these cylinders are made to move back and forth and turn over again and again, thereby achieving the goal of uniform mixing

### Technical Parameters

Model	VH-100	VH-200	VH-300	VH-500
Barrel Capacity (L)	100	200	300	500
Feed Volume coefficient	0.4			
Max Feed weight (KG)	50	100	150	200
Agitation speed	15	12	12	12
Mix with time (min)	6-8	6-8	6-10	6-10
Motor Power (kw)	1.1	1.5	1.5	2.2
