

## *AL520 Horizontal Ampoule/Vial Labeler*

AL520 Horizontal Ampoule/Vial Labeler is suitable for many variety of tube labeling. When labeling, the tube will automatically rotate to allow the labeling device to apply the pressure for labeling. Suitable for medicine, food, beverage, and chemical industries. Can be used for plastic, glass, metal and other round containers/bottles. With its innovative design, its operation is so simple that even a primitive man can use.

**Suitable Industry:** Pharmaceutical / Medical, Biotechnology, Food, Beverage, Cosmetic, Chemical, Plastic...etc.

### **Specifications:**

Labeling Speed	Max. 220 ampoules per minute
Labeling Drive	5-phase stepper motor
Control Interface	Touch Screen Control Panel
Products Diameter	10~25mm (or on request))
Core Diameter	76mm (3")
Label Roll O.D.	380mm Max. (15")
Voltage Supply	AC 110/220V 50/60Hz 1Phase
Power	830 W
Dimension	(L)1800mm × (W)1100mm × (H)1660mm
Weigh	Approx. 175kg
Material	Frame and main components are made from SUS#304 stainless steel and anodized aluminum.
