

## ZG-220 Pneumatic Perfume Crimper

Designed for filling perfume into bottles and sealing the bottles afterwards. Minimum filling is 0.3 ml, maximal filling is 100 ml. Accuracy of filling is 0.05 ml. Production capacity is 1200 – 2000 bottles per hour. The machine can work with wide variety of bottle shapes and volumes.

### Technical Parameters:

Minimum oil filling	0.3ml
Accuracy	±0.05mm
Input voltage	AC110V/220V ±10% 50Hz
Working environment temperature	10-40 °C
Overall Size	550*550*650mm
Maximum oil filling	100 ml
Production capacity	1200-2000/h
Consumption Power	≤300VA
Filling type	Pneumatic
Weight	≤70kg
