

## QSF160 Tinplate Can Washer

This washer is designed for the three pieces canned food production line. It is small size, high efficiency and automatic. Empty tinplate cans enter into turnover device, then water spray the inner wall of the can to clean the empty cans, after that the water flow into recycle pipe to discharge, and the cans enter into the production line.

It can reduce the can washing cost and can match with any production line. It is the prefer equipment for cannery.

### 主要技术参数

生产能力	30~160罐/分 cans/min
耗水量	2~3m <sup>3</sup> /h
适用罐径	Φ52~105mm
适用罐高	60~133mm
功率	1.5kw
重量	300kg
外形尺寸	2200 × 950 × 1100mm
