

## Vertical Automatic Packaging Machine for Powder series JR-T500/T700

### Features:

1. The series of packaging machine made of bags in the vertical bag on the basis of the closure of the four corners, so that a stronger three-dimensional sense of the bag, the appearance is more beautiful and generous.
2. This series of models set bag, filling, sealing, printing, punching, counting in one, using servo-driven film with automatic film correction function.
3. Automatic calibration function, save time and film, improve the reliability of the whole intelligence.
4. PLC control components are used international brand-name electrical appliances, reliable performance, sealing vertical seal with pneumatic, smooth and reliable action.
5. Advanced design to ensure that the series of packaging machines for different industries, when used in the adjustment, operation and maintenance are very convenient, with domestic and foreign supporting the use of various measurement equipment.

Bag form: pillow-type bags, vertical bags, playing hanging whole bag.

### Technical Parameters:

Model	JR-T500	JR-T700
Bag size	Front wide: 70-180mm	Front wide: 100-240mm
	Side width: 40-100mm	Side width: 50-120mm
	Edge closure width: 5-10mm	Edge closure width: 5-10mm
	length: 100-350mm	length: 100-420mm
Packing speed	10-50bags/min	10-40bags/min
Bag form	Length	Length
Maximum film width	500mm	700mm
Gas consumption	0.8Mpa 0.3m <sup>3</sup> /min	0.8Mpa 0.3m <sup>3</sup> /min
Power Type	220v 3.5kw 50Hz	220v 4kw 50Hz
Dimensions	L 1300*W 1130* H 1900mm	L 1700*W 1360* H 2250mm
Total Weight	750kg	900kg
