

Automatic Bag Powder Packing Machine

Product information:

1. This automatic bag powder packing machine adopts the international most advanced microcomputer chip control, with light magic eye tracking detection, two bags accurate sealing and cutting, can choose to equip with printer.
2. Applied for various powder such as milk powder, chili powder sesame seed, sterilizing keeping fresh powder materials etc.
3. Features: low cost, wear resistance and easy to operate.
4. It has a special eye, make sure the accuracy sealing and cutting.
5. If the customer needs the date printing system or some other special function, pls inform in advance.
6. One year guarantee and lifelong maintance.

Technical parameter:

Roll film width ___ 400mm
Bag length (mm) ___ 50-2050mm
Bag width (mm) ___ 50-180mm
Calculation range (mi-g) ___ 50-1000 mi/g
Packaging speed (package/min) ___ 20-60 bags/min
The maximum diameter of coil is ___ max300mm
Packing film thickness (mm) ___ 0.05-0.08mm
Use the power supply specification ___ 220v 50HZ 2kw
Machine weight (kg) ___ 450kg
