

Weighing Machine (WM-series)

Automatic weighing packaging machine is controlled by computer, it is mechanical feed and electric weighing quantitative bagging equipment. This machine operates easy, low noise and its measure is accuracy. Whole machine is stainless steel, corrosion resistant is strong. It is an ideal automatic weighing packaging machine.

Features:

- Adopt no-grade vibrating feeding system to make products flowing more fluently.
- Program can be freely adjusted according to production condition.
- Adopt high precision digital load cell.
- Stable PLC system control.
- Color touch screen with Multi language control panel.
- Sanitation with 304# S/S construction.
- The parts contacted products can be easily mounted without tools.
