

SP-1000 PE Film Soy Sauce and Vinegar Packing Machine

This machine is a vertical, three-side sealing and intermittent high-precision liquid packing machine developed and manufactured by our factory. The whole process of bag making, filling, sealing, printing batch number, cutting off, counting, etc is automatically completed and controlled by a microprocessor. It is currently the most advanced liquid object in China and is particularly suitable for soy sauce, wine, vinegar, juice drinks, prepared drinks, soy milk, Milk, peanut oil, vegetable oil and various vegetable oils, mineral water, and liquid chemical products in single-film pouches.

Technical specifications:

Made of bag length	50-250 mm
Made of bag width	65-175 mm
Packaging film width	150-380 mm
Packing capacity	200-1000 ml
Packaging speed	1100-1300 bags/h
Power	2.5 Kw
Dimensions	1050×850×2050 mm
Machine quality	380 Kg
