

## Wheat Flour Mixing Machine SED-100VH

The mixing tube structure of V type mixer machine is unique. It is made up of stainless materials. Both inside and outside walls are polished. There is no internal transmission mechanism inside V type mixing equipment and it meets the GMP standard.

### Feature:

1. V type mixer machine features beautiful shape, uniform mixing and wide application.
2. In accordance with the user's requirements, we can supply compulsory mixer for the powder and lump materials.
3. Stirring device can be added into V type mixing equipment to break easy-caking materials and further strengthens the mixing effect.

### Application:

V type mixer machine is widely used in pharmaceutical, chemical and food industries. It is suited for mixing more than two dry powder or granular materials.

Model Name:	SED-100VH
Total Volume:	100L
Capacity:	40-60kg/batch
Material Fed in Time:	3-5min
Mixing Time:	4-8min
Rotating Speed:	20r/min
Motor Power:	0.75Kw
Rotating Height:	1580mm
Total Weight:	500kgs
