

Can Beer Filling Sealing Machine GDF12-1/GDF24-6

This can filling and sealing machine applies to beer and beverage industry. It has applied the most advanced mechanical, electrical, pneumatic control technique in the world. It has the features of stable filling, fast speed, control of liquid level, reliable sealing, frequency modulation speed adjustment, little loss of material etc. We can install remote control system according to the requirements of customer. It is priority and ideal facility for medium size beer plant and beverage plant.

Technical parameters:

Model	GDF12-1	GDF24-6
Capacity	2000-3000cans/hour	5000-10000cans/hour
Suitable can height	65-160mm	65-160mm
Suitable can diameter	Ø40-83mm	Ø40-83mm
Power	2.2KW	4.5KW
Dimension	2000×1500×2200mm	2600×1800×2200mm
Weight	2200Kg	4000Kg
