

RQ-LPBF-P5 Automatic Ketchup Custom Blister Packaging Machine

This automatic ketchup packaging machine can automatically plastic molding, and liquid filling and bottle sealing. It is suitable for oral liquid, pesticide, perfume, cosmetic and sauce liquid and so on.

Main Feature

1. PLC control, frequency conversion regulates the speed.
2. Automatic finishing the process of spreading PVC roll, plastic bottle forming, liquid filling, creasing, batch number printing, cutting the end, and separating.
3. This Custom Blister Packaging Machines is very easy to set the parameter. All the data will be adjusted by the PLC screen.
4. No leaking, bubbles or overflowing in filling process.
5. Main pneumatic components and electric appliances are imported.
6. All the contact parts are made of high quality stainless steel, meeting the requirements of GMP.
7. Adopt electric peristaltic pump, precise calculation with slight error.

Packaging machine:

Max. forming depth	12mm
Max.Punching frequency	25time/min
Packaging Material	PET/PE PVC/PE(0.2-0.4)X120mm
Filling Volume of each bottle	1-50ml
Power supply	380V-50hz
Net Weight	750KG
Outline dim.	2300x850x1400mm
