HMD-450 Flow Packing Machine Food

The key parts of the machine are made of 304 stainless steel, which meets the food QS (production license) and pharmaceutical GMP (pharmaceutical packaging) hygiene requirements.

Features:

- Double frequency conversion control, bag length is set and cut immediately, no need to adjust idling, one step is in place, saving time and film.
- The high-sensitivity electric eye automatically tracks, no need to manually adjust after setting, the sealing and cutting size and position are accurate, and the sealing is firm and beautiful.
- Temperature independent PID (temperature controller) intelligent control, stable temperature control, better use of various
- packaging materials.
- Color touch screen display, positioning shutdown, automatic fault diagnosis function, the display is clear ate glance. Production is automatically counted, quantitatively determined, and packaging output is accurate and clear.
- The mechanical design and transmission system are simple, the work is more reliable, and the maintenance is more convenient.

Applications:

Food: cake, bread, biscuits, cookies, meat muffin, flaky pastry, moon cake, several sausage in a bag, noodles, beef jerky, eggroll, vegetable, etc

Product Specification:

Model	HMD-450
Film width	Max.450mm
Bag lenght	130-450mm
Bag width	50-180mm
Product height	Max.75mm
Film diameter	Max.350mm
Packing speed	30-150bag/min
Power	220v, 50/60Hz, 3.2kw
Machine size	4020*820*1450mm
Machine quality	400kg
Potional	Coding machine, gas-filling device, Fall bread machine, Richard machine
