

## Weight Checker YC-series

### Application:

Checkweigher is suitable for testing the weight of a small single item whether is qualified or not, and it is widely used in electronic, food, pharmaceutical, beverage, health-care, chemical industry etc. For example, it can be used in food industry to check the weight of flavour, cake, hams, instant noodles, frozen food, food additives, preservative etc.

### Technical Parameters:

Model	YC-0.6	YC-0.2	YC-3	YC-6	YC-18	YC-30	YC-60
Detection speed(g/spc)	60-120	50-100	40-80	30-60	25	20	15
Belt speed(m/min)	40	40	30	30	20	20	20
Precision(±g)	0.5	1	2.5	5	10	25	50
Detection length(mm)	30-150	30-250	70-350	70-450	240-550	240-750	240-950
Detection width(mm)	30-150	30-200	30-300	30-350	30-400	30-500	30-600
Detection height(mm)	10-150	10-200	10-300	10-350	30-400	30-500	30-600
Voltage	110V/220V						
Power(kw)	0.5				1
