

## *Envelope Type Wrapping Machine BW-600*

This machine is used to pack solid square and rectangle products with flat bottom such as bouillon cube, envelope-wrapping chocolate, and candy etc.

It is back sealing machine, high accuracy, stable operate and low noises.

### **Characterics:**

1. PLC & microcomputer control.
2. Photo-electrical positioning, stepper motor control paper feeding.
3. Its envelope type back sealing, nice and flat.
4. Automatic folding and sealing.
5. Easy operation, high efficiency, labor saving, easy maintenance.
6. Meet GMP requirement.

### **Main technical:**

<b>Model</b>	<b>BW-600</b>
<b>Speed</b>	60-120pieces/min
<b>Shape</b>	Square/rectangle
<b>Product size</b>	10g
<b>Packing material</b>	wax paper, Aluminum thin, art paper, wafer
<b>powder</b>	1.65KW
<b>Machine dimension</b>	1700*800*1540mm
<b>Weight</b>	600KG
