

Z Bucket Elevator TH-BBC-32

This conveyor adopt electric vibrator feeding method which feeding packing item into loading bucket, this is to adjust conveying capacity.

This conveyor adopt electric vibrator feeding method which feeding packing item into loading bucket, this is to adjust conveying capacity. The conveyor is made with SUS304 frame, the gear and chain transmission part. High quality of machine and complying to food, medicine industry grade.

Suitable for conveying free flowing products, especially for fragile material in the food, chemical, agriculture, pharmaceutical industry, such as snack foods, oats, candy, popcorn, potato chips, nuts, frozen food french fries, rice, spices, biscuits, etc.

Features:

- High degree of durability, safety features and low power consumption in relation to its capacity.
- Allowing for controlled feeds at one or more locations and can easily interface with various types of feeding devices.
- Easy to install and maintain, easy operation.
- Z type vertical feeding saves space and areas.
- Widen range of food, pharmaceutical and chemical industry, such as snack food, coffee beans, rice, sugar, salt, frozen food, candy and so on.

Technical Parameters:

Model	TH-BBC-32
Power supply (KW)	0.75Kw, AC380V, 50Hz; 3phase power supply
Machine weight(Kg)	450
Bucket width (cm)	32cm
Conveying capacity	3t-20t/h (adjustable)
Machine material	Stainless steel 304
Bucket material	Plastic hopper bucket(Food safety grade)
Linear speed	2.5-3m/s
Discharge outlet	height off ground: 304cm
