

Heat Shrink Packaging Machine HTL-590/180

It consists of main machine, input conveyor and output conveyor. The main box is welded with thick 12mm steel plate and made by special heat treatment. The packaging machine and food contact parts are all SU304 food sanitary grade stainless steel materials.

The other outer cover parts are steel plate paint, the middle seal is Direct heating, the life of the heating element is extended, the heat generation speed is fast, and energy is saved.

Specifications:

Model	HTL_590/180
Maximum width of packaging material	590
Package dimensions	L:90-400 ; W:30-200 ; H:40-120
Packing speed	50-150
Packing machine size	5000*1105*1750
Total weight kg	1200
Packaging material	PVC,OPP,POF etc.
Power supply	220V/50Hz 3.66kw
