

Xinxiang Ruihong Machinery Equipment Co., Ltd.

BLS-820 Automatic Bag Sealing Packaging Machine

Vertical automatic bag sealing packaging machine is suitable for various snacks, potato chips, banana chips, rice popcorn, chocolate chips, rice, grain, granule, seeds, beans, nuts, cashew, nut cracker, dry fruit, sunflower kernels, corn beans, puffed food, crispy rice.

Main Features:

1. The packaging styles are diversified, such as back seal, gusset, continuous bag, punching, etc.
2. The production of bags, sealing, packaging, and date printing are completed in one go.
3. Clean working environment and low noise.
4. The equipment can be equipped with optional devices: bagging, punching, pin, inflation, automatic correction and other devices;

Technical Parameter:

- TYPE: BLS-820
- Bag length: 100-500mm(L)
- Bag width: 250-400mm(W)
- Film width: 700mm
- Packaging speed: 15-35bag/min
- Measurement range: 15L
- Pressure: 0.65mpa
- Air consumption: 0.8m³/min
- Voltage: 220V/50HZ
- Power: 5.0KW
- External size: (L)1600mmx(w)1530mmx(H)2110mm
