

## *Automatic Liquid Paste Packing Machine with Back Side Seal DXDL-300*

### **Description:**

- Can finish the function of bag making, measuring, filling, sealing, cutting and counting.
- Controlled by computer and step motor pull bag, flexible bag length cutting, operator needn't to adjust the unloading working, saving time and films.
- Separate PID control to temperature, suitable for various packing materials.
- Option device: ribbon printer, filling device, gas-exhaust device, horizontal sealing punching device, rotary cutter, small cutter, former beat device, batch pneumatic cutter.
- Simple driven system, working more stable, and easy to maintain.
- Packing material: (PET/PE), (Paper/PE), (PET/AL/PE), (OPP/PE).

### **Feature:**

PLC screen, intelligent control, failure warning, solid intelligence double road temperature control, the design of circulatory wind-electric cabinet for 24 hours working, 304 stainless steel.

### **Specification:**

<b>Model</b>	<b>DXDL-300</b>
Bag Type	back side seal
Method of Measurement	piston pump type
Range of Measurement	0-150ml
Packing Speed	30-60 bag/min
Machine Weight	260kg
Total Power	1600W
Bag Size	W: 30-140mm L:30-170mm
Machine Size	L1000*W750*H1700mm
Voltage	380V or 220V or made accordingly
