

Automatic Potato Chips Snacks Packing Machine

The Automatic Potato Chips Snacks Packing Machine mainly packs the potato chips, the packaged potato chips are complete and beautiful, the damage rate is low, and the material consumption is reduced, which can save cost and improve competitiveness.

The Automatic Potato Chips Snacks Packing Machine is also suitable for weighing various materials such as granules and strips. Such as melon seeds, almonds, pistachios, pine nuts, candy, puffed food, bean food, frozen food, pet food, all kinds of snack foods, hardware and daily chemicals, etc.

Automatic Potato Chips Snacks Packing Machine features

1. The Automatic Potato Chips Snacks Packing Machine adopts imported PLC full computer control system, man-machine interface, touch screen operation is simple and intuitive;
2. Servo film transport system, accurate positioning, excellent machine performance, beautiful packaging;
3. Perfect automatic alarm protection function, reducing the loss to zui low;
4. The Automatic Potato Chips Snacks Packing Machine and the metering device can automatically complete the whole packaging process of metering, feeding, filling and bag making, date printing;
5. Bag making form: The Automatic Potato Chips Snacks Packing Machine can be made into pillow bag, vertical bag according to customer needs.

Technical Parameter:

Packing speed (Bag/Min)	30-70
Making bag size	L:30-150mm
Maximum outer diameter of reel paper (mm)	350-450
Calculate range (ml)	750g
The Thickness Of The Packing Film (mm)	0.03-0.10
Working Voltage	220V
The Shape Of The Bag Making	Pillow seal
Power	1.5KW
Net weight	300KG
Outside Dimension (mm)	650×900×1550
