

Automatic Milk Pouch/ Bag Packaging Machine

Automatic milk pouch/bag packaging machine is hot selling. HENAN UNIQUE is automatic milk small bag packing machine manufacturer and will offer direct price for milk automatic bag/ pouch packaging machine. This packing machine is suitable for various liquids packaging like sauce, juice, vinegar, milk and soy milk. It can complete all the processing include bag forming and making, quantitative filling, injet printing, sealing and cutting. The film will take ultraviolet disinfection before packaging and meeting the food hygiene standard.

Features:

1. Milk bag automatic packaging machine process parts can automatically take UV sterilization, bag forming, date printing, quantitative filling, sealing and cutting. The machine body adopts stainless steel structure, meeting international health standards.
2. Milk pouch automatic packaging machine has stable performance, easy to operate, low failure rate, and now has been unanimously praised by domestic and foreign customers.
3. High balance tank or self-priming pump quantitative filling, direct heat sealing, bag size, packaging weight, sealing temperature adjustment convenient and reliable, the date of production ribbon printing, edge sealing, back closure, photoelectric tracking.

Technical parameters:

Item	Parameter	Item	Parameter
Capacity:	1500-2000 bags/hour	Packaging accuracy	±2%
Voltage:	220V	power:	1.5 kilowatts
Filling capacity:	100-500ml/bag	Film width:	240-320mm
Machine weight:	220kg		
Dimension	750×750×1750mm(self-priming pump)
