

Round Tea Coffee Pod Packing Machine

Overview

1. The tea packaging machine requires environment without large amount of dust, temperature 5 °C - 40 °C, can not freeze; relative humidity is not more than 60%, no condensation.
2. Heat-sealed filter paper, the outer circle is required to be flat, the outer diameter ≤ 450 mm, the inner diameter of the skeleton = 75 mm.

Application:

This machine is suitable for particles material, such as: tea, coffee, food, medicine and chemical

Technical specifications:

Packing speed	50-65 bag/min
Filling range	2-7g
Voltage	220V/50HZ/1.6KW
Air source	0.4-0.7mpa
Air consumption	$>0.1\text{m}^3/\text{min}$
Weight	400KG
Size	760*860*1730mm
