Automatic Vertical Plane Self-Adhesive Labeling Machine STL-P

Brief Introduction:

Plane Self Adhesive Labeling Machine is applicable for the surface labeling for various paper boxes, cartons, batteries, cosmetics etc, such as anti-counterfeit labels, bar codes and so on.

Features:

1. Operation on Touch Screen in English
2. Human-computer interface with control by PLC.
3. Adopt import electric components.
4. With fault alarm display and help information
5. To meet the needs of different products
6. Label sending system with high precision, make sure the accuracy of labeling.
7. Optional: date/batch printer / coder.

Parameter:

Model	STL-P
Speed	80～200pcs/minute
Suitable label roll inner diamet size	Φ75mm
Suitable label roll outside diamet size	Φ350mm maximum
Drive	Step motor driven
Label Size	width：10～120mm length：20～300mm
Power	0.5KW
Coding Device	Ribbon Coder
Voltage	AC 220V；50Hz
Weight	150KG
Dimension	2000×600×1500MM
