

Semi-automatic filling machine KF01-PC

Application

KF01-PC Semi automatic paste filling machine is a kind of Semi automatic piston filling machine. This equipment is all to be use the pneumatic components and is especially suitable for the use of explosion-proof requirements or humid environment. All the parts in contact with the materials are imported 304 stainless steel and is belong to high quality equipment.

It can be used filling liquid or cream/ paste. Dual-use

Principles and Characteristics

- The KF01-PC semi-automatic paste-filling machine has simple structure, reasonable and easy to understand.it has reasonable design, model compact, easy to operate.
- Pneumatic part used Germany FESTO and Taiwan AirTac pneumatic components.
- The filling, focusing instead on use of anti-drip, anti-filling drawing and lifting devices.
- High stability, high precision filling, Continuous type work. And Filling action is neat and can be perfect operation.
- No bottles, no filling. The filling volume and filling speed of paste filling machine can be arbitrarily adjusted, with high accuracy.

Technical Parameters:

Model	KF01-PC100	KF01-PC200	KF01-PC500
Filling range	1-100ml	10-200ml	50-500ml
Air pressure range	4-6Kg/cm ²	4-6Kg/cm ²	4-6Kg/cm ²
Filling speed	30-35	25-30	20-25
Pressure	0.4-0.6mpa	0.4-0.6mpa	0.4-0.6mpa
Filling accuracy		≤ ± 0.25-0.5%	
Electrical original		200 / 110V,50 / 60HZ	

Model	KF01-PC1000	KF01-PC2500	KF01-PC5000
Filling range	100-1000ml	500-2500ml	1000-5000ml
Air pressure range	5-8Kg/cm ²	5-8Kg/cm ²	5-8Kg/cm ²
Filling speed	15-20	10-15	5-10
Pressure	0.5-0.8mpa	0.5-0.8mpa	0.5-0.8mpa
Filling accuracy		≤ ± 0.25-0.5%	
Electrical original		200 / 110V,50 / 60HZ
