

Automatic Small Bag Granule Nut / Tea Packing Machine DXDK60/B

Features

- Volume Cup to meet the different packaging requirements, product packaging reliable and practical.
- Volume packaging machine have fast, accurate, economic and practical advantages.
- By changing the structure of heat sealing, packaging bags can be made into trilateral letters, four-sided letters, shapes, such as pillow-shaped letters.
- Computer control, using PLC system, easy to operate, stable and reliable operation
- Stepper motor control tape system, high precision of bag making
- When the bag is stopped, the hot sealing mold will be opened automatically after the stop
- Fully automatic tracking color label, and automatic positioning and length determination of packaging bags

Technical Parameters:

Modle	DXDK60/B
Packaging capacity(bags / min)	40-60
Measurement range (ml)	20-100
Power supply voltage	380VPhase 4-wire system
Power	1.1kw
Dimensions (mm)	W625*L750*H1550
Material	stainless steel
