

MGF 3 in 1 Full Automatic Drinking Water Filling Machine Bottling Production Line

- Application: still water, pure water, RO water, mineral water, sparkling water, alcoholic drinks, wine, etc.
- Suitable for: PET bottles
- Filling system: gravity filling
- Production capacity: 5000 BPH–30000 BPH (500ml)

Technical features:

- It is adopted that direct connection between air conveyor and inlet star wheel instead of screw and conveyor chains, which is easier for bottle changing.
- There is no need to adjust the height of equipment through neck holding tech for bottle transportation. And what is only to change some spare parts.
- High speed filling line is of clamp transferring technology. Bottle shapes are more varied, and the working table inside the machine is more laconic.
- By 3-in-1 monoblock, the bottle goes through rinsing, filling and capping with little abrasion, and the transferring is stable, bottle changing is easier.
- Specially designed stainless steel bottle clamp dose not contact the thread parts of the bottle neck, avoiding the second contamination.
- High speed and large flow filling valve assures the high filling speed and exact fluid level.
- Spares contact with the liquid are all of excellent stainless steel or food level plastic. The electric system is of international brand and achieves the national food sanitary standard.
- The bottle-out starwheel is of screwdown shape. When bottle size is changed, there is no need to adjust the transferring chain's height.
