

WB-280K4 4 Lanes Granule Packing Machine

This WB-280K-4 automatic white sugar packing machine is a 4-lane fully automatic stick pack granular packing machine, which is suitable for long strip zigzag cut bags made of paper film. In addition to white sugar, it can also Pack pepper, traditional Chinese medicine granules, three-in-one coffee, and other granular products.

Feature

1. Easy for installation and operation;
2. The machine body to PLC programmable controller, man-machine interface operation panel, automatically achieve bag packaging, packaging into the box, box, and other processes;
3. It has a powerful self-checking function program, imported detection electric eye, automatic alarm, and shutdown function when there is no material shortage, which saves enterprise production costs, avoids unqualified products, and improves production efficiency;
4. It can automatic memory parameter setting function, parameterized control production, simple operation, and labor-saving.
5. The boxing machine has the functions of automatically sucking the box, setting the box shape, pushing the product into the box, folding and sealing box, etc.
6. Servo push material, photo-eye detection, no box without material, can avoid empty box and avoid waste
7. Open design, convenient for back-end docking with various other packaging equipment

Technical Parameters

Model	WB-280K
Lane number	4 Lanes
Filling method	Volumetric cup
Capacity	Max.50bags/min/lane
Film Width	Max.280mm,0.07-0.10mm
Bag size	L50-180mm;W17-65mm
Sealing type	Stick pack;
Cutting type	Round cutting (Zigzag cut, flat cut and special-shaped cut can also be customized)
Power	3.5kw
Air supply	0.8Mpa 0.8m ³ /min;
Overall Dimension	1385*918*2005mm
Net Weight	350kg
