

## HZPK HZGY1000-4D Automatic Liquid Filling Machine

Automatic liquid filling machine is mainly used for filling liquid. Such as beverages, detergents, oils and so on. It is widely use for foodstuff, chemical and daily use filed etc.

### Features:

1. Can customize products according to customer bottle samples.
2. Easy to adjust filling parameter with PLC and touch screen automation control system.
3. The whole body is made of 304 stainless steel, compact structure, and beautiful appearance, with stable and reliable performance, easy maintenance.
4. Adopted piston quantitative, use well-known brand accessories, filling accuracy, adaptability.
5. It complies with CE certification.

### Filling volume:

10-100/30-300/50-500/100-1000/200-1500/300-2500/1000-5000ml

This machine is a standard model, if you need to customize, please contact sales.

### Technical Parameters:

Model	HZGY 1000-4D
Voltage	AC220/110V 50-60Hz
Power	400W
Air Pressure	0.6-0.8MPa
Filling Speed	1000-1200bph
Filling Accuracy	±1%
Filling range	Customizable
Machine Size	2000*1050*1650mm
Required Air Compressor	≥7.5kw 200L
