

Edible Oil Packing Machine

Edible Oil Packing Machine takes the lead among others in this industry by providing a package that helps to streamline the packing of edible oils. This device is essential for ensuring that all oil packages meant for supermarket shelves have been well packed from accurate measurement to consistent sealing. The range of these machines comes in a variety of types which are designed according to specific production needs and packaging conditions.

Technical Specification:

| Parameter | Specification |
|----------------------------|--|
| Packing Capacity | 500 grams to 2 kilograms |
| Packaging Material | Heat-sealable laminates, such as PET/PE |
| Filling System | Multi-head weigher or volumetric filling |
| Sealing Mechanism | Heat sealing |
| Machine Speed | Up to 30 packs per minute (adjustable) |
| Power Supply | 220V/50Hz or 380V/50Hz (customizable) |
| Power Consumption | Approximately 3 kW |
| Air Pressure Requirement | 0.6 MPa (6 bar) |
| Machine Dimensions (LxWxH) | 2200mm x 1200mm x 1800mm (may vary) |
| Control System | PLC (Programmable Logic Controller) |
| Touchscreen Interface | 7-inch color HMI (Human-Machine Interface) |
| Material Contact Parts | Stainless Steel 304 |
| Weight | Approximately 800 kilograms |
