

## ***CXM-250B Plastic film Flow Wrapping Machine***

1. Double inverter control, the bag length is set and cut immediately, no need to adjust the idling, one step is in place, saving time and film.
2. Man-machine interface, convenient and quick parameter setting.
3. The fault self-diagnosis function, the fault display is clear at a glance.
4. High-sensitivity photoelectric eye color mark tracking, digital input of the sealing and cutting position, so that the sealing and cutting position is more accurate.
5. Independent PID control of temperature, better suitable for various packaging materials.
6. Positioned stop function, no sticking to the knife, no wasting of film.
7. The transmission system is simple, the work is more reliable, and the maintenance is more convenient.
8. All control is realized by software, which is convenient for function adjustment and technical upgrade, and never lags behind.

### **Technical specifications:**

Model	CX-250B
Film width	Max.250mm
Bag length	65~190mm 120~280mm
Bag making width	30~110mm
Product height	Max.40mm
Film roll diameter	Max.320mm
Packaging speed	40~230 packs/min
Power Specifications	220V, 50/60HZ, 2.4KVA
Machine size	(L)3770×(W)670×(H)1450mm
Machine weight	800Kg
