

## Coffee Powder Cup Filling and Sealing Machine BHP-series

BH series coffee powder filling and sealing machine is widely used in various kinds of containers specifications for filling and sealing. Filling type can be configured in different ways, such as Gravity, filling type, cup type, negative pressure, screw filling so that it applies to a variety of different products filling

BH series coffee powder filling and sealing machine can filling of the powder, drinks, jelly, milk, ice cream, butter, jam, rice pudding, wine, Medical, Chemical industry etc, it also sealing with related complex film.

BH series coffee powder filling and sealing machine can automatically fill and seal from sending cups, filling, level control, putting covers, twice sealing, pushing cups and transporting. This machine is a multifunctional high-speed full automatic machine for different sizes of cups according to clients' requirement. This machine is applied with world famous electrical and pneumatic components and can be adopted by PLC system according to client' requirement. It can be equipped with PLC and touch screen control.

### Technical parameters:

Model	BHP-16	BHP-14	BHP-12	BHP-10	BHP-8	BHP-6
Production capacity (cup/h)	11200-12800	9800-11200	8400-9600	7000-8000	5600-6400	4200-4800
Filling volume	10g (also can according to your demand for custom)					
Power	4 KW					
Air Consumption	0.65m <sup>3</sup> /min					
Power supply	220V/ 50Hz					
Temperature	0-300 °C					
Weight	850 kg					
Size	1800x320x1600 mm					

Model	BHP-5	BHP-4	BHP-3	BHP-2	BHP-1
Production capacity (cup/h)	3500-4000	2800-3200	2100-2400	1400-1600	700-800
Filling volume	10g (also can according to your demand for custom)				
Power	4 KW				
Air Consumption	0.65m <sup>3</sup> /min				
Power supply	220V/ 50Hz				
Temperature	0-300 °C				
Weight	850 kg				
Size	1800x320x1600 mm
