

SPJ-20 Fully Automatic Capsule Filling Machine

SPJ-20 Fully Automatic Capsule Filling Machine adopts multi-bore dosing, intermittent motion and frequency control. It is suitable for automatically completing capsule feeding, separating, filling, (waste capsule rejecting), closing, finished product ejecting for powder or micro pill medicine in capsule. Its characteristics are advanced structure, the newest closed ten work stations and six stations rotating table, high precision, low noise, and easy replaced mould and best suitable for domestic capsules and so on. The main parts of the bearings and electric parts adopt international famous brand, performance stability and can be run at a high speed. All parts contacting the medicine powder are made of quality stainless steel, fine workmanship, provide dust collector device and conforms to "GMP" standard.

Technical Parameters:

Model	SPJ-20
Production Capacity	2000 pcs/min
Capsule Size	# 00---#5 and A---E safety type capsules
Filling Accuracy	> 98% (the precision is better than nation standard)
Vacuum Degree	(-0.04) --- 0.08 Mpa
Working Degree	< 75 Db (A)
Power	380V, 50Hz, 3.25 Kw
Packing Size	1780*1180*2200 mm
Packing Weight	1300 Kg
