

BF-series Automatic Side Sealing And Shrinking Machine

Automatic side seal shrink wrap machines offer a fast and efficient way to shrink wrap your products for distribution. These systems feature full programmable, easy to use interfaces that can store multiple packaging settings. With a variety of shrink film options and in-feed systems these shrink wrap machines are perfect for packaging solutions that package a variety of products.

Features

- Easy operating
- Unlimited packing length
- Height adjustable
- Sealing cutter with teflon coating
- Easily sealing
- Omron digital temperature controller
- Electronic speed regulator
- Multi Language Operator Interface
- Counting system
- Safety Devices: Emergency Stops, Seal Jaw Safety Switches,
- Protective Guards, and Safety Interlocks on All Access Panels

Specification

Model	BF-450	BF-550	BF-650	BF-750	BF-950
Packing speed	15-35 bag/min				
Packing size	W+H≤400 mm	W+H≤500 mm	W+H≤600 mm	W+H≤700 mm	W+H≤9500 mm
Unlimited length	H≤200 mm	H≤200 mm	H≤200 mm	H≤200 mm	H≤250 mm
Air pressure	5kg/m ³				
Supply power	220V 50/60HZ				
Power	1.35Kw	1.5Kw	1.5Kw	2Kw	3Kw
