

LD-280BKL/LD-560BKL Automatic Various Flavors Popsicle Juice Packing Machine

This machine is suitable for packaging different types of liquids at the same time, such as juices of different flavors, Ice Lolly, olive oil, soy sauce, juice, honey, jam, mayonnaise, ketchup; shampoo, conditioner, hand soap, hand-washing gel, toner, lotion, makeup remover.

Features:

1. Multi lanes machine can produce multi lanes bags at same time;
2. Machine main function: automatic split film at right position, liquid measuring and filling, multi lanes bag form fill seal, cutting, sensor tracking, counting capacity;
3. Other function: Emergency stop, set capacity to auto stop machine, count capacity and Zero the count, ready bag output, manual test machine each step etc;
4. Stainless steel contact part and the machine outer shell, high feature for liquid running environment;
5. High precision photocell sensor for auto tracking the eye mark printing on the film roll, so cut each bag at precisely position;
6. PLC controller, high function and control the whole machine's work steps.
7. One machine produces different products at the same time, save cost;
8. Peristaltic pump feeding, clean and hygienic, saving space;
9. This machine is 6 lanes packing machine, high speed and high efficiency around 120-150 sachet/ min.

Specification:

Model	LD-280BKL	LD-560BKL
Track Number	4~6 Track	8~12 Track
Filling Method	1.Piston pump; 2.Peristaltic Pump; 3.Volumetric cup	
Capacity	Max.35 cycle/min	
Sachet Size	L:50--180mm; W:17-30mm	L:50--180mm; W:17--30mm
Film Width & Thickness	Max.280mm; 0.07-0.1mm	Max.560mm; 0.07-0.1mm
Sealing Type	Backsealing/ Stick bag	
Cutting Type	1. Straight Cutting; 2. Zig Zag Cutting; 3. Continuous Cutting	
Air & Power	0.8 mpa 0.8m ³ /min; 2.8kw	0.8 mpa 0.8m ³ /min; 4.1kw
