

ALFT-60/100/150/200 Oral Liquid Filling Machine Manufacturer – Bottle

We offer automatic liquid filling machines for bottles, which are using in various type of liquid fillings.

By our machinery all Bottles are manually/automatically load on turn table/conveyor where bottles are getting filled in a series of operations by drive-in type stainless steel syringe pumps (co-eccentric nozzles), which allow quick and precise setting. Its height can be adjusted to match other machines for efficient synchronization for further operations.

We Laxmi Pharma, are among the reputed names in the industry for manufacturing and Oral Liquid Filling Machine Equipment, which is used in different types of machines. Buy machine, all bottles are manual / automatically loaded on a turn table/conveyor where the Liquid gets filled in a series of operations by drive-in type. You will get many oral liquid-filling machine bottle manufacturers, but Laxmi Pharma has provided you with high-quality products with guaranteed fulfillment. This machine is user-friendly and compact, it is a Volumetric type, SS 316 to PTFE type each Filling Pump, is suitable to fill 5ml to 1000ml with the help of a change part, etc.

Features

- As per GMP,
- It features SS 316 contact parts, offers filling accuracy, and accommodates volumes with interchangeable parts and variable speed control.
- The machine has volumetric filling technology, which ensures accurate liquid dosing compliant with GMP standards, making it ideal for pharmaceutical and industrial uses.
- This machine also has SS-316 to PTFE-type filling pumps.

- It has an output range of 40 to 250 BPM.
- It has all Liquid Contact Parts S. S. 316.
- Has filling accuracy of $\pm 1\%$.
- It is sustainable to fill 5 mL to 1000 mL with the help of the change part.
- It has individual volume settings for each (manually) or servo type for automatic setting.
- Having a No-Bottle, No-Fill System.
- It has a main machine and conveyor that have a variable frequency drive.
- This machine has imported a gearbox and motor.

Technical Parameters

Model	ALFT-60	ALFT-100
Filling type	Dive-in	Dive-in
Grade	Automatic	Automatic
suitability	Water base liquids	Water base liquids
Bottle Diameter Range	Up to 100mm	Up to 100mm
Input/Output type	Manuel	Manuel
Pump Nos.	2	4
Filling Accuracy	± 1	$\pm 1\%$
Output/Min	50-60 Bottles	80-110 Bottles

Model	ALFT-150	ALFT-200
Filling type	Dive-in	Dive-in
Grade	Automatic	Automatic
suitability	Water base liquids	Water base liquids
Bottle Diameter Range	Up to 100mm	Up to 100mm
Input/Output type	Manuel	Manuel
Pump Nos.	6	8
Filling Accuracy	$\pm 1\%$	$\pm 1\%$
Output/Min	130-150 Bottles	180-200 Bottles
